 Quote Dashboard
 Order Status & Tracking Information

Whether you're an engineer, purchasing agent, sales or aftermarket support, myNORD has tools to help streamline your daily work.

- ▶ Intuitive selection and configuration of NORD products
- ▶ Convenient access to 3D models, 2D drawings and dimensional prints direct from quote configuration
- ▶ Real-time visibility to account-specific net pricing
- ▶ Quick access to order status and unit-specific documentation

Effortlessly create customized drive solutions

- ▶ Integrated product logic helps ensure only valid combinations are shown
- ▶ Configure product by model number or via performance data search filters
- ▶ Tip texts and images help guide you through the configuration
- ▶ Immediate visibility to price and model number changes with each click

Download CAD files directly from the product configuration interface

- ▶ 3D preview image and 3D models
- ▶ Dimensional prints
- ▶ 2D outline drawings

Create quotes with account-specific net pricing

- ▶ Download formal quote as PDF file
- ▶ Access to unpriced data sheet PDF
- ▶ Quote dashboard efficiently supports collaboration within your company and with NORD sales, engineering and customer service staff
- ▶ Place orders directly from your quote dashboard – you can even use your own purchase order document

Track the status of your orders

- ▶ Locate current order status through convenient search and filter options
- ▶ Download order-specific documentation such as installation guides, user manuals and spare parts schematics
- ▶ Order tracking numbers with direct link to carriers website

Access to full portfolio of documentation specific to your serial number

- ▶ Standard operation and maintenance manuals available in consolidated file or as individual PDF files
- ▶ Download and print documentation or forward as a link
